

Medi-Cal Provider Enrollment

Withdrawal of the proposed regulation for Medi-Cal Provider Enrollment that was published in the July 2004 *Medi-Cal Update*: Enrollment as a Facility-Based Provider Practicing *Exclusively* in a Licensed Health Facility

Following its publication in the July 2004 *Medi-Cal Update*, but prior to implementation, the Department of Health Services (DHS) hereby withdraws the proposed regulation on procedures for enrolling facility-based providers practicing exclusively in a licensed health facility. That regulation had been noticed to become effective for all application packages received on or after August 16, 2004. Based on comments and written input that was timely received from providers and their representatives pursuant to *Welfare and Institutions Code*, Section 14043.75, DHS has determined that the proposed regulation, as written, is unduly burdensome on certain providers. Therefore, that proposed regulation will not be implemented.
